Integrated industry and trade manufacturing company established in 1987. It is a designated accessory manufacturer by the China Electrical Equipment Industry Association, the Electric Control Industry Association and relevant state ministries and commissions, and a governing unit of the Electrical Machinery and Equipment Structure Branch of the China Electrical Equipment Industry Association. There are more than 1,000 products, covering all low-voltage switchgear accessories listed as MNS, GCS, GCK, R-Blokset, R-Okken, etc. Main circuit connectors, auxiliary circuit connectors, switch operating mechanisms, MNS, GCS insulating parts, cable connection unit, switchgear door locks and other series of products have been repeatedly rated as industry recommended products and Zhejiang Province market trusted famous and high-quality products.

CNC laser cuttings machines, folding machines, 63-ton punching machines, 630~4500g fully automatic computer-controlled injection molding machines, etc. Temperature rise testing equipment , voltage testers, resistance testers and other related testing equipment.

We always adhered to the corporate purpose of quality-oriented, hard innovation, sincere service, and steady development. With the care and help of all sectors of society, it has continued to grow. ISO 9001:2000 quality system certificated, which has built a bridge of credibility for domestic and foreign sales. We sincerely hope to strengthen cooperation and create brilliance together.

接插件采用常规接插件，经济实用，增加抽屉内部空间，可根据需要选配高防护等级IP40的活门组件；或 高防护等级IP40的双夹头的插件减少垂直母线的插拔损伤。

每个位置有锁定装置，从一个位置进入下一个位置要解锁才能操作，每个位置均可提供可锁的方法，以将 它们固定在一个或几个位置上。

采用滚珠导轨限位，推拉灵活，具有到位锁定，大间隙进入，高精度准确自动定位，防止抽屉意外坠落功能。

内部构件采用模块化设计理念，充分体现通用的理念，满足25mm 模数以及20mm 模数型钢骨架，以及板 式结构的适配。

The connectors are conventional, economical and practical, and increase the internal space of the drawer. High protection level IP40 valve assembly can be selected as needed; or a high protection level IP40 double-clamp connectors can reduce the plug-in and pull-out damage of the vertical busbar.

Each position has a locking device, and it is necessary to unlock it to operate from one position to the next. Each position can provide a lockable method to fix them in one or several positions.

The ball guide rail is used for limiting, and it is flexible to push and pull. It has the function of locking in place, entering a large gap, and high-precision and accurate automatic positioning to prevent the drawer from accidentally falling.

The internal components adopt a modular design concept, which fully reflects the universal concept and meets the adaptation of 25mm modular and 20mm modular steel frames, as well as plate structures.

Establish a career with precision and win with quality

ZTG Withdrawable Switchgear Special Accessories

主要功能 Main function

基于GB/T 7251关于可抽出式部件的PSC-成套设备设计，门板防护等级每个位置保持如同连接位置时的防护等级不变，以及满足对抽出式部件的相关功能描述，具有市面产品无法比拟的可靠性和安全性能，具有操作简单，功能齐全，经济实惠，造型美观等特点。

Based on the PSC-complete equipment design of withdrawable components in GB/T 7251, the protection level of the door panel in each position remains the same as that in the connected position, and meets the relevant functional descriptions of the withdrawable components. It has unmatched reliability and safety performance of products on the market, and is simple to operate, fully functional, economical, and beautiful in appearance.

接插件采用常规接插件，经济实用，增加抽屉内部空间，可根据需要选配高防护等级 IP40 的活门组件；或高防护等级IP40 的双夹头的 插件减少垂直母线的插拔损伤。

每个位置有锁定装置，从一个位置进入下一个位置要解锁才能操作，每个位置均可提供可锁的方法，以将它们固定在一个或几个位置上。

采用滚珠导轨限位，推拉灵活，具有到位锁定，大间隙进入，高精度准确自动定位，防止抽屉意外坠落功能

内部构件采用模块化设计理念，充分体现通用的理念，满足25mm 模数以及20mm 模数型钢骨架，以及板式结构的适配；

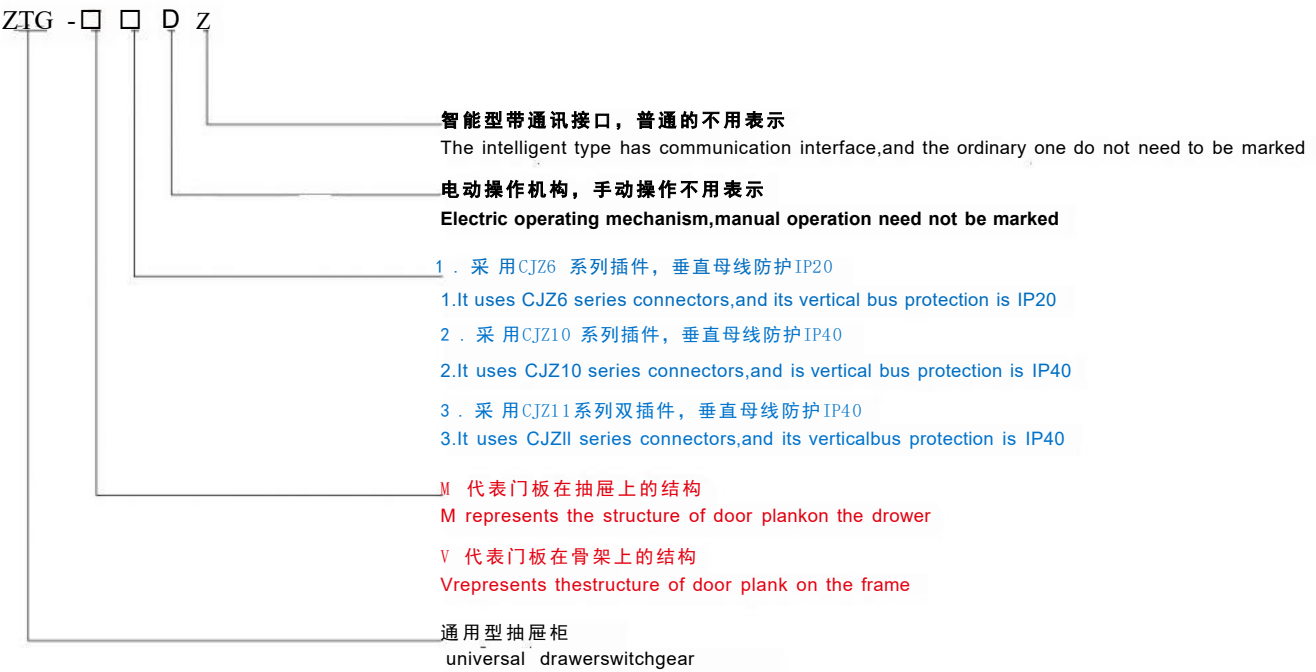

The connectors use conventional connectors with economical and practical features,and they can increase the internal space of the drawer,andit canalsobe equipped with valve assembly with high protection level IP40 as required;orit can be equipped with double-camped plug with high protection level IP40 in orderto reduce the plug damage of vertical bus.

Each position are equipped with locking device,It can be unlock only when from one position to the next position; .Each position can be provided with a lockable method to fix them in one or several positions.

With limit guide rail in ball type,with flexible push and pull when with high precision and accurate automatic positioning and preventing accidental fall of the drawer.

The internal components adopt modular design concept,which fully embodies the concept of universal function,it satisfies 25mm module and 20mm modules steel frames,and the adaptability of plate structure.
